# TEACHING COUNCIL

- Evaluation Committee Members
- Two representatives of the National Scientific Societies that at invitation will join the project
- A representative for each participating University.

- Has the task to delineate and update, with other similar European structures, the training and refresher courses for defining and recognizing the figure of European Professional Phlebologists.
- Will act as consultant to evaluate every dispute between the Commission and the individual assessment to protect the same phlebologist.
- Will connect with Teaching Council of other Nations participating in the project to draw up together the **European Guidelines of Phlebology**.
